

- 1 **Basement Floor:** A finished basement floor with a sump pump and drainage system.
- 2 **Tyvek® Homewrap® Protection:** A breathable barrier that allows interior moisture to escape while preventing mold and mildew buildup in wall cavities.
- 3 **Effective Positive Drainage:** Protects your foundation by channeling water away, reducing the risk of water damage and moisture problems around your home. Including Interior, exterior perimeter and under basement slab drains leading to a positive drainpipe carrying water away from basement, promoting a dry basement- no sump pump!
- 4 **Foundation Waterproofing:** A sealed membrane foundation that blocks moisture, better controls humidity, and reduces the risk of foundation leaks.
- 5 **Optimized Attic Ventilation:** Most advanced non mechanical patented system with Invisivent soffit and Ridge Vent II ventilation keeping your attic cooler by allowing fresh air movement and reducing heat and moisture buildup.
- 6 **Self-Sealing Exterior Doors:** Protects against moisture, humidity, and pests while maintaining indoor air quality, offering superior protection with low maintenance with its spring loaded thresholds.
- 7 **Healthier Indoor Air:** Installing a passive radon system and conduct radon testing, upgrading to an active system if needed, ensuring safer air quality and reduced exposure
